Foreword

This report constitutes the proceedings of the 2003 edition of the Text REtrieval Conference, TREC 2003, held in Gaithersburg, Maryland, November 18–21, 2003. The conference was co-sponsored by the National Institute of Standards and Technology (NIST), the Advanced Research and Development Activity (ARDA), and the Defense Advanced Research Projects Agency (DARPA). Approximately 200 people attended the conference, including representatives from 22 different countries. The conference was the twelfth in an on-going series of workshops to evaluate new technologies for text retrieval and related information-seeking tasks. Ninety-three groups submitted retrieval results to one or more of the workshop's tracks.

The workshop included plenary sessions, discussion groups, a poster session, and demonstrations. Because the participants in the workshop drew on their personal experiences, they sometimes cite specific vendors and commercial products. The inclusion or omission of a particular company or product implies neither endorsement nor criticism by NIST. Any opinions, findings, and conclusions or recommendations expressed in the individual papers are the authors' own and do not necessarily reflect those of the sponsors.

The sponsorship of the U.S. Department of Defense is gratefully acknowledged, as is the tremendous work of the program committee and the track coordinators.

TREC 2003 Program Committee

Ellen Voorhees, NIST, chair
James Allan, University of Massachusetts at Amherst
Nick Belkin, Rutgers University
Chris Buckley, Sabir Research, Inc.
Jamie Callan, Carnegie Mellon University
Gordon Cormack, University of Waterloo
Susan Dumais, Microsoft
Fred Gey, University of California at Berkeley
Donna Harman, NIST
David Hawking, CSIRO
Bill Hersh, Oregon Health & Science University
James Mayfield, APL, Johns Hopkins University
John Prange, U.S. Department of Defense
Steve Robertson, Microsoft
Karen Sparck Jones, University of Cambridge, UK
Ross Wilkinson, CSIRO
