

Deep Learning Track results — (Webis) Webis@Halle, Leipzig, Weimar

Run Description	
Run ID:	webis-dl-1
Task:	Document Ranking
Subtask:	Reranking the official top 100
Topic type:	Automatic
Single-stage retrieval?	No
Dense retrieval?	No
Used deep nn model?	No neural representation learning
Type of training:	This year's MS MARCO training data
Pre-processing/indexing cost:	We have created 4 Anserini indices (for each of the 4 types of text one index). (I cant exactly remember the indexing time, think it was around 30 minutes on 12 Cores (AMD EPYC 7F72 Processor) per index.
Query processing cost:	It took 6 hours to generate the features for all queries (training, dev1, dev2, and test) with 12 cores (AMD EPYC 7F72 Processor).
